

`include/idgenerator.h`

```
graph TD; A[include/idgenerator.h] --> B[QtCore/QtGlobal]; A --> C[QtCore/QDataStream];
```

The diagram illustrates the dependencies of the `include/idgenerator.h` header file. It is shown as a central box at the top, with two arrows pointing downwards to two other boxes. The left box contains `QtCore/QtGlobal` and the right box contains `QtCore/QDataStream`, indicating that `idgenerator.h` includes both of these Qt headers.

`QtCore/QtGlobal`

`QtCore/QDataStream`
